- **Apple Homepage Clone**
 - **Technology: HTML, CSS**
 - This project is a recreation of the Apple home page using HTML and CSS. It focuses on replicating the basic structure, layout, and visual style of the official website.
 - Key features
 - ✓ A minimalist layout replicating the clean aesthetic of the Apple website.
 - ✓ Hero section showcasing a featured product with a high-quality image and tagline.
 - ✓ Focus on clean typography and use of Apple's signature fonts.
 - ✓ Navigation bar with links to key product categories (e.g., iPhone, Mac, iPad, etc.).

- **New Age Ott**
 - **Technology: UI/UX, Figma**
 - This project involved designing a user interface (UI) for a new-age OTT mobile application using Figma. The goal was to create a modern, intuitive, and user-friendly interface that caters to the needs of today's OTT viewers.
 - Key features
 - ✓ Modern and intuitive layout
 - ✓ Easy navigation and search functionality
 - ✓ User profiles and watchlists
 - ✓ Personalized content recommendations
